Zentryx Labs

# Tu día exige mucho.

## Te contamos qué hay en cada cápsula y por qué la creamos.

En **Zentryx Labs** sabemos lo que significa llevar un ritmo de vida exigente: largas jornadas de trabajo, muchas horas frente a una pantalla, responsabilidades, entrenamientos y días en los que parece que no hay tiempo para parar. Por eso quisimos crear una fórmula que combina tres ingredientes relacionados con la producción de energía celular y la protección antioxidante.

### NR | La materia prima para producir NAD+

El **NR es una forma de vitamina B3 que** el cuerpo puede transformar en NAD+, una molécula esencial para que tus células conviertan los nutrientes en energía. También participa en procesos de **mantenimiento** celular.

**En tu día a día:** tus músculos, tu cerebro y tus órganos necesitan esa energía para afrontar jornadas exigentes, concentrarte y seguir el ritmo del día. El NAD+ es una pieza esencial para que tus células puedan hacerlo.

### Coenzima Q10 | Energía y protección celular

La CoQ10 participa en la producción de energía dentro de las **mitocondrias y actúa como antioxidante, ayudando a protegerlas del daño causado por ciertas moléculas.**

**En tu día a día:** cuando caminas, trabajas, haces ejercicio o simplemente realizas tus actividades, tus células necesitan funcionar constantemente. La Q10 forma parte de los mecanismos que hacen posible producir esa energía y proteger las células.

### Piperina | Aprovechamiento y apoyo digestivo

La piperina es un compuesto natural de la pimienta negra, estudiado por su capacidad para influir en la absorción de determinadas sustancias. También se relaciona con procesos digestivos y propiedades antioxidantes.

**En tu día a día:** no solo importa lo que tomas, sino también cómo tu cuerpo lo digiere, lo absorbe y lo aprovecha. La piperina influye en la correcta absorción de losingredientes.

## Modo de uso

**1 cápsula al día** con un vaso de agua.
90 cápsulas veganas · 3 meses de suministro

### Una fórmula pensada para acompañarte

**No es una pastilla que te dé un impulso de energía inmediato.** Es un complemento pensado para acompañar, con el tiempo, procesos naturales del cuerpo como la producción de energía celular y la protección frente al estrés oxidativo.

GMP BUENAS PRÁCTICAS DE FABRICACIÓN · ISO 9001 CALIDAD CERTIFICADA · 100 % VEGANO

**Además:** Fabricado en Europa: · HACCP · Análisis independientes · Control microbiológico · Metales pesados analizados
Características: Sin gluten · Sin lactosa · Sin azúcar · Non-GMO Sin organismos modificados genéticamente

**Testing laboratory:**
Eurofins Food Testing Slovakia s.r.o.
Komjatická 73, 940 02 Nové Zámky
IČO: 52 601 714
tel.: +421 908810030, +421 911810531
MarketingNZ@ftcee.eurofins.com, www.eurofins.sk

**Customer:**
GreenPharm s.r.o.
Čermeľská cesta 67/C
040 01 Košice
SLOVAKIA

**Date of Sample Receipt**: 06.08.2026 **Date of Testing**: 06.08.2026 - 12.08.2026 **Issue date:** 12.08.2026

**Information about Sampling:**
Sampler: customer

**Sample information:** **147-2026-00088551**
# Sample description: Zentryx Labs - NAD+ CoQ10+Piperina 90caps
# Producer: GreenPharm s.r.o.
# Best before date: 12/2028
# Lot/Los-Nr.: LC261551
Matrix: Food Supplements - Vitamin, mineral, combined supplements, and supplements with other nutritional or physiological effects

**Microbiological tests**

| Parameter | Unit | Allowed Value | Measured Value | Uncertainty of measurement* | Testing method | E | SL | TT |
|---|---|---|---|---|---|---|---|---|
| *Escherichia coli* | cfu/g | ≤ 100 | <10 | - | STN ISO 16649-2 | S | NZ | A |
| *Salmonella species* | /25 g | Not Detected | Not Detected | - | STN EN ISO 6579-1 | S | NZ | A |

**JUDGEMENT**

The results of measurements of the monitored microbiological parameters of the analysed sample are in accordance with the requirements of Annexes 15 and 31 Food for special nutritional purposes and nutritional supplements, to the fourth title of the second part of the Food Code of the Slovak Republic of the Decree of the Ministry of Health and the Ministry of Health of the Slovak Republic No. 06267/2006-SL regulating the microbiological requirements for foodstuffs and the packaging for their packaging.

The statement(s) of compliance / non-compliance with the specification (or requirements) is based on a 95% probability of coverage for the expanded measurement uncertainty of results on which decision rule is based according to ILAC-G8:09/2019 (applicable only to quantitative parameters).
The conformity / non-conformity assessment cannot be confused with the results of the conformity assessment carried out by the inspection or certification body.

**Notes:**
E - evaluation
S - satisfied
NS - not satisfied
ŠPP - Standard operation procedure
(A) - accredited sampling
(SA) - accredited sampling executed under the subcontract
ND - not detected by given method
LOQ, LQ – limit of quantification
CFU - Colony forming unit
NM - necessary quantity
TT - type of test
A - accredited test executed at the own test laboratory
N - non accredited test executed at the own test laboratory
SA - accredited test executed under the subcontract
SN - unaccredited test executed under the subcontract
(TM) - testing outside the laboratory at the customer
m - the highest allowed value at the case of one sample
M, c - "M" highest allowed value for the number "c" at the case of 5 sample`s evaluation
* - measurement uncertainty – sampling and analysis – determined by extension coefficient k=2 (with probability of 95%). If sample is taken by the customer uncertainty of sampling is not available.
- uncertainty given in % reflects the uncertainty from the result of measurement.
** - Acceptable to consumers and no abnormal change
SL - analysis laboratory: NZ-Nové Zámky

**Disclaimer:** Laboratory is a disclaimer when the information is supplied by the customer (#) and can affect the validity of results. If the sample has been provided by the customer, the results refer to the sample as it was received. Gauges and measuring equipment used for testing were calibrated or attested in accordance with the valid metrological instructions. The above mentioned test results refer to the tested sample only! The result given in this Analytical report and marked as non accredited test shall not be a subject of accreditation. The result given in this Analytical report and marked as sub- delivery is the result of a Subcontractors gauging made under the terms and conditions of a contract concluded eith him. This Analytical report shall not be reproduced except in full colour version, without written approval of the laboratory. SNAS is a Signatory to the Multilateral Agreement MRA ILAC.
